

LAUNDRY

DRYING IRONER PMCA-180

STANDARD FEATURES

- Frontal linen entry and return
- IM 7 microprocessor with 30 ironing programs
- The ironing temperature and speed are both electronically controlled
- The ironing speed is automatically adjusted according to the ironing temperature variations, ensuring a constant ironing quality
- Cooling function lowers energy costs
- Current operation is displayed on this self diagnostic machine
- Ironing belts in NOMEX, making them high temperature resistant.
- Hand safe bar: The roller stops when the user accidentally moves something behind the roller (i.e. a hand)
- Two emergency push buttons which cut the electrical supply when pressed

AVAILABLE OPTIONS

- Pedal to invert the roller rotation to correct the linen introduction

DRYING IRONER PMCA-180

Technical Data

Roller length	1880 mm
Roller diameter	330 mm
Ironing speed	1-6 m/min
Electric heating element (Power)	9 x 2.8 Kw (25.2 Kw)
Average hourly production	40 Kg/hr. Residual humidity @ 50%
Gas heating power	24.6 Kw
Total power	26.2 Kw (Electric) 1 Kw (Gas)
Flue gas consumption	350 m ³ /hr. 1 burner ¾" connection
Machine dimensions (LxWxH)	598 mm x 2514 mm x 1087 mm
Packing dimensions (LxWxH)	710 mm x 2610 mm x 1270 mm
Gross weight	520 Kg
Net weight	488 Kg

Detail & Dimensions

As continued product improvement is a policy of Powerline, specifications are subject to change without notice.
